ABOUT ME

Self-taught Senior Fullstack Developer with 8+ years of hands-on experience designing, building, and maintaining robust web applications in production. Specialized in TypeScript, scalable backend architectures, and real-world AI & Web3 integrations. Focused on delivering technical autonomy, high code quality, and strong ownership in remote environments.

WORK EXPERIENCE

Senior Fullstack Developer

Alfa - Trustful Technology for Tomorrow

Mar. 2022 - Present

- Full-stack development (backend, frontend, and infrastructure) of **Talent AI**, the company's core AI-powered B2B recruiting SaaS platform.
- Integrated large language models (LLMs) and AI workflows to automate and streamline applicant screening processes.
- Developed highly concurrent backend services using Node.js, NestJS, and PostgreSQL, utilizing Redis caching.
- Implemented dynamic and responsive user interfaces using React and TypeScript.
- Created Web3 integrations for fintech and investment projects, enabling smart contract and wallet connectivity.
- Applied functional programming principles in TypeScript to standardize error handling in internal libraries.

Tech: TypeScript, Node.js, NestJS, React, PostgreSQL, Redis, Docker, Web3.js

Fullstack Developer (Independent Contractor)

Independent Contractor

Aug. 2021 - Jan. 2026

- Designed and developed tailor-made full-stack web solutions for multiple clients.
- Implemented responsive e-commerce platforms and content management systems (CMS).
- Managed the full project life cycle from initial client requirements to final production deployment.

Tech: React, Node.js, TypeScript, E-commerce, CMS, CSS Grid/Flexbox

Web Developer

Tecnitech Solutions

Jan. 2018 - Jan. 2022

- Built and maintained robust, interactive web applications.
- Developed dynamic user interfaces using AngularJS and JavaScript (ES6+).
- Designed and optimized relational database schemas.
- Ensured responsive layouts and cross-browser compatibility across modern browsers.

Tech: AngularJS, JavaScript, HTML5/CSS3, Relational Databases

Fullstack Developer

Dilio

Jul. 2021 - Sep. 2021

- Developed new frontend features for web applications using React and TypeScript.
- Integrated and queried large analytical datasets using Google BigQuery and Firebase.

Tech: React, TypeScript, Google BigQuery, Firebase
